

TELEPRICE PROGRAM

You can obtain the current Retail pump price for any Petro location 24 hours a day, 7 days a week by calling 1-800-494-3835 and selecting option 2. You will need to know the location's four-digit code and that can be found in the Petro Network directory. You can obtain a copy of a Petro Network directory at any Petro location.

If your company has negotiated special pricing with Petro you can obtain the pricing offered to your company by having a copy of your company's Petro discount (available from your dispatch office). Just follow these simple steps:

- Call 1-800-494-3835 (FUEL)
- Choose the appropriate pricing selection from the menu option (Cost Plus Base Price or Retail Pump Price)
- Enter the 4 digit Petro location number for the location of your choice. (The location number can be found in the Petro Network Guide)
- If you requested the Cost Plus Base Price you will be given the fuel price including all applicable costs for the location you selected, with the exception of the pumping fee. To determine your company's Cost Plus Price you must add your company's Cost Plus Pumping Fee to the Cost Plus Base Price you were given on the phone.
- If you requested the Retail Pump Price you must subtract your company's retail discount from the Retail Pump Price to get your cost per gallon.
- You can have the information repeated, press the # key to select another location or you can end the call.

**IF YOU NEED HELP AT ANY TIME,
PLEASE CALL CUSTOMER SERVICE AT 1-800-879-1776.**

Carry the card below with you to have pump prices at your fingertips.

Just follow these simple steps:

1. Call 1-800-494-3835
2. Choose the appropriate pricing selection from the menu options.
3. Enter the 4-digit ACCESS™ location number for the location of your choice.
4. After the ACCESS™ location number is entered you will be given the fuel price including all applicable costs except the pumping fee, for the location that you selected.
5. Based on your pricing selection:
 - a. Cost Plus Base Price - add the pumping fee to the fuel price to get your cost per gallon.
 - b. Retail Pump Price - subtract your discount from the fuel price to get your cost per gallon.

4-digit ACCESS™ location numbers can be found in location directories. If you need help at any time, call Customer Service at 1-800-879-1776.
